

UVEX Safety Equipment

Glasses

Attractive, classic sporty design, pleasantly lightweight and optimum protection – the uvex pheos nxt. The special design of the temples not only looks impressive: The directional structure also ensures extremely good grip – even during demanding tasks.

Hearing Protection

Uvex highly insulating ear muffs offer effective protection with very high wearing comfort. The high-quality foldable headband with stitched comfort cushions on the inside ensures a high level of wearing comfort and is also ideal for long-term use. The infinitely variable length adjustment enables perfect adjustment of the wearing position.

Helmets

The lightweight uvex pheos safety helmets in a sporty design offer maximum wearer comfort – for example thanks to the climazone ventilation and the extremely variable 3D interior. The robust, dimensionally stable helmet shell easily withstands lateral pressure and meets all safety requirements in construction and industry. Their functional accessory system makes uvex pheos industrial safety helmets particularly versatile.

Gloves

UK CE

-  Stoßschutz
-  Außenschicht aus Nylon- Mischgewebe

HexArmor®

Innovation and safety go hand in hand. This is the DNA of the Helix® Series. Helix® Series safety gloves are tightly knit and made from strong and extremely abrasion resistant fibers that provide industry leading cut protection and abrasion resistance. These comfortable knitted gloves are a seamless series that can be used for most tasks.
